From the Director...

2006 is the year that formally marks 150 years of public adult education in the state of California. The week of March 13, 2006, Adult Education Week in California, we will have several activities to celebrate the tradition, values and future of public adult schools. I hope you'll be able to join us in some of these events. On Saturday, March 11, we will have an open house and celebration at our Green Valley campus with music, our distinguished alumni, and community friends. On Saturday, March 18, we will invite adult educators from around the region to a conference at our site (supported by the California Council for Adult Education).

Last fall in this brochure we shared some of the long history of public adult education in California, from an English class for immigrant adults in old St. Mary's Church in San Francisco in 1856, through the creation of "evening high schools" in the 1920's, the huge growth of adult education in the movements for social justice in the 1930's, through the initiation of GED diplomas for returning GI's in the 1940's, the addition of short term technical education in the 1960's... well, our growth and service is extraordinary. For more information about adult education in California, go to the state website: www.caadultedhistory.org/

These kinds of passages make us look at both the past and the future, in ways that give us gratitude and hope in our present. Aptos, Watsonville and the whole Pajaro Valley are a community of historical diversity and accomplishment. It is our honor to be here serving these adults in our community whose lives amplify with new learning.

I also want to mark another passage. Here you see the picture of Marilyn Files who has produced these brochures for many years. She is retiring from our office staff, though she will continue with us as a teacher. Thanks Marilyn for years of beautiful brochures.

Bob Harper
Director

From the Assistant Director...

This year Adult Education enters its 150th year of serving newcomers to our nation, helping them to learn the language, customs, history, and laws so that they can participate in achieving their goals and become productive citizens. It has helped adults improve their basic skills and earn their high school diplomas or GEDs, learn vocations, go on to higher education, or change their careers. It has facilitated parents expanding their parenting skills to guide their children with age appropriate discipline and educational activities. It has provided life long learning opportunities for adults at all the various stages of their lives.

I am proud to be entering my 25th year of being part of this great tradition and institution. I was an instructor for 22 years and will always consider myself one, coordinator of the Community Based English Tutoring (CBET) Program that combined adult education's passion to help adults acquire English with its long standing tradition of facilitating parents in developing their parenting skills and involvement in their children's education and school. I bring these passions to my position now as assistant director. We at Watsonville/Aptos Adult Education are proud of our dedicated students and their achievements and honored to be able to facilitate this in any way we can. We are also excited about the new collaborations that we are forging with district and community partners enabling us to share expertise and resources to better serve all of our students from K to adult.

Assistant Director

Clinical Medical Assistant Program*

Watsonville/Aptos Adult Education, in collaboration with Boston Reed and local healthcare facilities, is offering a 17-week Clinical Medical Assistant training program. The "back office" medical assistant's primary role is to assist the doctor in providing patient care. Clinical Medical Assistant duties include assisting the doctor with clinical procedures such as minor surgeries, performing simple laboratory tests and administering medications. Participants will be required to satisfactorily complete 120 hours of classroom instruction and a 160-hour clinical externship. The clinical externship will be performed at a local medical clinic or office and will be arranged by Boston Reed. The program satisfies all training guidelines established by the California Medical Board and the California Medical Assistant Association (CMAA). Participants will receive a certificate of completion and be job-ready upon completion of the course. **Course fee of \$1,470 (paid to Boston Reed) includes textbook, workbook, medical equipment, clinical externship and certificate.** This course is offered in Spring and Fall.

Concurrent Enrollment for High School Students

Students currently enrolled in a high school seeking to “make-up” credit or prepare for the California High School Exit Exam may enroll in the adult school, on a space available basis. The courses are offered in an individual study format with a teacher. The following items are required for registration:

- meet with your high school counselor and parent or guardian
- complete a concurrent high school release form with all required signatures
- bring a current high school transcript

Classes: Monday – Thursday, 3:30 – 8:30 pm at the Porter Building, Room 23. No fee.

Second Opportunity for Students

Second Opportunity for Students (SOS)

SOS is for young students/individuals age 14 through 19 who have stopped attending school.

Each SOS student has the opportunity to:

- Earn high school credits to return to a comprehensive or alternative high school program
- Prepare for the GED, college or training program
- Earn a high school diploma through Watsonville/Aptos Adult Education

The instructor works in partnership with each student and his/her family for greater successful outcomes. Job skills/life skills, computer literacy and vocational training are also offered. Please call 728-6330 for information and an appointment. **No fee.**

Uniform Complaint Procedures

The Governing board recognizes that the district is responsible for ensuring that it complies with state and federal laws and regulations governing educational programs. The district shall follow uniform complaint procedures when addressing complaints alleging unlawful discrimination based on ethnic group identification, religion, age, gender, color, or physical or mental disability in any program or activity that receives or benefits from state financial assistance. The district shall also follow uniform complaint procedures when addressing complaints alleging failure to comply with state or federal law in adult basic education, consolidated categorical aid programs, migrant education, vocational education, child care and development programs, child nutrition programs and special education programs. (Title 5, Section 4621)

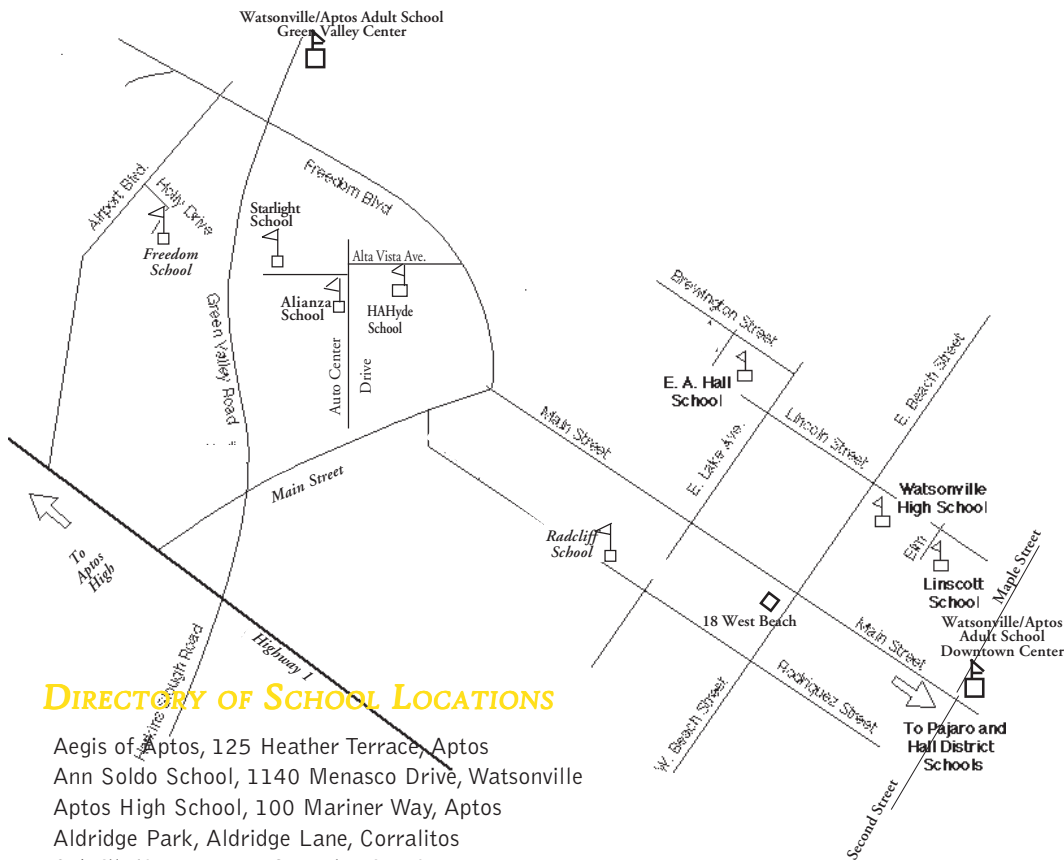

The Board encourages the early, informal resolution of complaints at the site level whenever possible. Upon receipt of a written complaint from an individual, public agency or organization, uniform complaint procedures shall be initiated. The Superintendent or designee shall distribute full information about these procedures.

The Board recognizes that a neutral mediator can often suggest an early compromise that is agreeable to all parties in a dispute. In accordance with uniform complaint procedures, whenever all parties to a complaint agree to try resolving their problem through mediation, the Superintendent or designee shall initiate a mediation process before beginning a formal compliance investigation. The Superintendent or designee shall ensure that mediation results are consistent with state and federal laws and regulations. (Title 5, Section 4631)

The Board acknowledges and respects student and employee rights to privacy. Discrimination complaints shall be investigated in a manner that protects the confidentiality of the parties and the facts. This includes keeping the identity of the complainant confidential except to the extent necessary to carry out the investigation or proceedings, as determined by the Superintendent or designee on a case-by-case basis. (Title 5, Section 4621)

The Board prohibits retaliation in any form for the filing of a complaint, the reporting of instances of discrimination or participation in complaint procedures. Such participation shall not in any way affect the status, grades or word assignments of the complainant.
